Tübingen, 21. September 2005

Dear Colleague,

Hearing Research has offered to publish manuscripts of oral and poster presentations from the Inner Ear Biology Symposium and Workshop 2005 in a special issue. This is a very generous offer, and we would encourage participants to contribute. Please note that this is a free offer, and that it is the policy of the organizing committee that every participant is free to submit his/her work to any journal he/she chooses.

Please submit manuscripts to Hearing Research mentioning that it was partly or fully presented at the IEB Symposium and Workshop in Tübingen. Manuscripts will be subjected to the usual peer-review process. Please consult an issue of Hearing Research or the Hearing Research website <http://ees.elsevier.com/heares/> for instructions for authors. If enough manuscripts are accepted (15 minimum), they will be published in a special issue of Hearing Research. If less than 15 manuscripts are accepted, they will be published in regular issues of Hearing Research.

The deadline for submission is 28 February 2006.

On behalf of the organizing committee,
Tony Gummer
